

group

- arginine
- aromatic amino acids
- histidine
- isoleucine/valine
- lysine
- methionine/sulphate
- methionine/siroheme
- tryptophan
- uracil
- adenine
- transmembrane transport
- DNA damage response
- DNA translocase activity
- proteasome
- protein maturation
- unknown
- V-ATPase assembly
- ribosome
- ergosterol
- stress response
- ceramide
- vitamin B6
- cytosine
- clathrin
- mRNA splicing
- other
